Cooperative schools rely on family involvement to be successful. Please consider your skill sets and interests, then look over the job descriptions and let us know your top three choices. We ask that you have at least three listed, in case everyone wants to hold the same position. We do ask you make one of your options an Executive Board position you would be able to fill.

This is the time to really think about what your talents are and how you can best contribute to your child's education and enjoyment at school. History shows that the more involved parents are in the "workings" of the preschool, the more they and their children enjoy the co-op experience. Also, the more involved you are in their education (at any age) the more the children directly benefit from their schools and teachers. When moms and dads begin participating in their child's education at age 2 or 3, it naturally continues into later grades. Kindergarten teachers claim to be able to spot a co-op parent right away and love us!
